**The 2010
Mini-Medical School Lecture Series**
sponsored by

The Mini-Medical School is presented by members of the Whatcom County Medical Society on current topics in medicine. Beyond the sharing of information, these presentations offer an opportunity to talk with physicians about how they think about health and disease, how they analyze problems and how they apply science in their work.

Wednesday, September 8

“Food Sensitivity: allergies, intolerances and strong convictions”
Dr. Kevin Doms, Bellingham Asthma, Allergy and Immunology

Wednesday, September 15

“Health Care Reform: what’s in it for me?”
Dr. David Lynch, Family Care Network

Wednesday, September 22

“Whatcom CSI: fact and fiction of death investigation”
Dr. Gary Goldfogel, Whatcom County Medical Examiner

Wednesday, September 29

“The Evidence is Clear: surgery is the most effective treatment for obesity and diabetes”
Dr. Walter Medlin, PeaceHealth Medical Group

Wednesday, October 6

“Cancer: the art and science of diagnosis and treatment”
Drs. Ian Thompson and William Hall, Northwest Radiation Oncology Associates

Wednesday, October 13

“Vaccine-preventable diseases and vaccines: how safe and how effective?”
Dr. Greg Stern, Whatcom County Health Department

**All lectures are free to the public and will be held
7:00—8:30 p.m. at St. Luke’s Health Education Center
3333 Squalicum Parkway**
